## **GREECE CALLS** ON POWERS

### All Nations but Germany Have Promised to Use Their Best Offices.

END OF THE WAR IS NEAR

### Turkish Troops Are Already Moving Homeward.

Nothing Serious Is Expected, but the Continuance of a State of War Is Regarded as the Best Means of It Is Reported That Queen Olga Has Sent a Telegram to the Czar Asking the Mediation of Russia, Edhem Pasha Protects Inhabitants of Voto.

Athens, May 9.-The correspondent of the Associated Press learns on the very best authority that Greece has made a written application to the powers through their representatives at Athens with a view of obtaining mediation. All the representatives have promised in their replies to use their best offices except the German minister, who has merely acknowledged the receipt of the

note from the cabinet. The porte is inclined to support the powers, with a view to the facilitation of negotiations, but it declines to consent to an armistice, on the ground that this would enable Greece to reorganize her forces.

As a mater of fact, Turkey continues to send troops from Salonica homeward, and it is probable that Osman Pasha has returned to Constantinople from Salonica. In view of both facts it may be assumed that nothing serious is expected, but the continuance of a state of war is regarded as the very best means of hastening the efforts of diplomacy. Without doubt hopes have been raised in Turkey that the Ottoman government might annex Thessaly and restore the old frontier of 1881, but the sultan is not inclined to risk such a step. On the contrary, he opposes it uncompromisingly and will not yield to the pressure of the war party at Constantinople. He will be satisfied with a reasonable indemnity and slight rectification of the eastern Thes salian frontier, such a one as would give Turkey several strategic positions

in the vicinity of Nezeros, Athens, May 9.-It is understood that Greece agrees to confide her interests to the powers in the peace negotiations. A dispatch from Lamia, dated yesterday says that Crown Prince Constantine is still at Domokos and that General Smolenski is at Almyros. Riccotti Garibaldi and the Italian volun-

#### teers have arrived at Almyros. EXODUS FROM DOMOKOS.

The dispatch says that the exodus of inhabitants from Domokos, Lamia and the surrounding country continues. Greek tornedo boats still patrol the Gulf of Volo. It is probable that more fighting will occur at Domokos,

The telegraph is still working to Domokos and the latest dispatch from that point says that the Turks are half way between Pharsalos and Domokos and are believed to be planning an attack upon the latter. The Turks do not molest the inhabitants of the vilhave burned houses and plundered several churches at Pharsalos.

In the course of an interview today Colonel Vassos said: "The union between Crote and Greece is now an actunl fact, and nothing is lacking but the consent of Europe. The foreign admirals recently asked my authority to advance their troops in Crete beyond the zone previously occupied. The powers may do what they like. The union of Crete and Greece is inevitable and a necessity.

It is reported in official circles that Queen Olga has sent a telegram to the czar soliciting the mediation of Russia. Athens, May 9.-The Greek western squadron has rescued a large number of women and children from villages

### TOUCHING SCENE AT VOLO.

#### Edhem Pasha Promises to Protect the Inhabitants Who Remain.

Volo, May 9.- The correspondent of the Associated Press describing the entry of the Turkish troops, says: "Edhem Pasha sent a flag of trucwith a proclamation that he would protect all inhabitants remaining in the town. A touching scene ensued. In the principal street an immense crowd gathered with anxious upturned faces, listening eagerly to the reading of the proclamation on which was to decide their fate. When the reading was finished a murmur of intense relief was heard throughout the dense throng, quickly followed by frantic shouls of "Long live the sultan."

But there still remained cause for the most serious anxiety, for the question was then, whether the Greek admiral, whose ships were lying off the town and in plain sight, would necept Edhem Pasha's terms. A single gun shot from the fleet would have compelled the Turks to treat Volo as

To this, the Turkish commander re plied that only one battalion would enter, the main army going into camp outside, and he again requested that the Greek fleet be withdrawn, as oth-erwise he could not be responsible for what might occur."

London, May 9.—A despatch to the Daily Mail from Volo says that as the sult of the proclamation of Edhem Pasha, promising to protect the inhabitants and to use only one battalion as the occupying force, on condition that the Greek fleet be withdrawn, the Greek admiral has been ordered to leave forthwith. Volo has been occupied by a Turkish force of 6,000,

#### PRONOUNCED IT BETRAVAL.

#### Crown Prince Constantine's Retreat Is Looked Upon with Suspicion.

Velestino, May 9.-When the troops pere heard of the retreat from Pharsalos they pronounced it a betrayal, Certainly it is unfortunate that Crown Prince Constantine should a second time be obliged to begin a retreat. The Athens correspondent of the Times

"So great is the change in public sentiment that no opposition whatever s provoked against the decision to re-Hastening the Efforts of Diplomacy. George, who is believed to be unapproachable on this subject, has yielded with good grace.

"The Journal Akropolis publishes

some startling revelations. It sent a corespondent to Pharsalos to investigate the cause of the retreat from Larissa and he was allowed to question the members of the dismissed staff. Without exception they denied that they had refused to carry out the orders of the cabinet, save on one occason, when the government wished to remove some superior officers from their commands. On all other occasons the staff was in complete harmony with the cabinet. The ministers had indeed ordered the army to remain on the defensive but the staff considered that a defensive position would be most effectually secured by advancing to certain points. The officers positively denied giving the order for the general retreat from Mati and declared that they were not responsible for the abortive attack on Menexe. They explained that the retreat begain with wholesale desertions from the division of Colonel Mayromichalis, firing the Turkish position at Dereli. Then the panic spread, the staff was powerless to check it and a reorganization to defend Larissa was impossible. M. Ralli came to headquarters during the day and begged the staff to save the army." With reference to the retreat in Epirus the papers print the following extraordinary telegram from Colonel

"It is a disgraceful slander to say that I ordered the retreat. My brigade has advanced victoriously to the gates of Janina. Why it retreated is a question for a court-martial to decide; and the guilty parties should be punished

Probabilities for the Week in Senate and House.

MORGAN CUBAN RESOLUTION TO LEAD

It May Possibly Provoke Long and Spirited Debate in Senate -- The House Programme of Three Days Adjournment Will Be Suspended This Week -- Lively Oratorical Displays Arc Expected.

Washington, May 9 .- There is no certainty as to the line of proceeding in the senate during the present week, The Morgan Cuban resolution probably will be taken up Monday, and it may lead to a prolonged and spirited debate. Senator Morgan is quite determined to press the resolution to an issue and Senator Hale just as determined to prevent its passage, Mr. Hale ultimately will move to refer the resolution to the committee on foreign relations and an effort will be made to enlist the friends of the administration against it. The committees will be filled Monday or Tuesday, but as this will be done on the basis heretofore agreed upon there will be no friction over the proceeding. The conferreport on the Indian appropriation bill may cause some debate but the probabilities are that the agreement of the conferences will be gener-

ally acquiesced in. The house programme of three day adjournment will be suspended this eck. The sundry civil appropriation bill has passed the senate, and now returns to the house for action on the amendments. The programme pursued when the Indian bill came back to the house probably will be followed in the case of the sundry civil. That is the amerdments will be considered in the house before the bill is sent to conference. There is a good deal of bitter feeling among the house factions, which may break out as soon as opportunity for debate is given and some very lively oratorical displays are expected. The conference report on the Indian appropriation bill also will be ready for consideration before the week closes. The questions involved in the opening of the Uncompaghre reservation in Utah will, of course, furnish the main source of contention in the debate on this report.

Charles H. Beattys, of Peckville, has been upwhich this matter has been referred and it is principally through his efforts that a favorable committee re port has been secured. There will probably be a flerce debate on the matter when it comes up for discussion in the conclave, but the friends of the tra are confident that it will finally bass.

The sessions will not end before Saturday, because of the enormous amount of business now before the body. The growth of the order during the past two years has been phenomenal and at present there are 480 conclaves and 35,000 members in good standing. There are about 275 delegates in attendance and among them are many men of great ability. A new man, John Sullien, of Kansas City, Mo., who is bound come up to the front in the order rithin a few years, has been electrifying the sessions with his persuasive and picturesque eloquence. He is unquestionably among the foremost this conclave of the order. Mr. Sullivan held an important government ofce in Missouri, which President Cleveland kindly relieved him from for "perniclous activity" in the campaign of Mr. Bryan for the presidency. Scranton delegates are all quartered at the Louisville hotel and are delighted with the hospitality shown them by

their Kentucky brothren. A large number of the delegates were anxious to give Mr. Boland the highest horor in their gift, that of supreme archon, but he steadily declined to accept it. Had he allowed his name to be used there could be no question as to his election. He would have a practically solid vote from the northern and western conclaves and would also have many of the Maryland and Virginia delegates. His business interests however, prevented him from accepting and the honor again fell to Mr ohen. It is hardly necessary to say that Mr. Boland's action was regretted ing his name for the office. P. At 12.45 the first alarm was sounded, Chief J. J. O'Horo no sooner arrived on the scene than he saw the great danger of a general conflagration and wisely sent out a second alarm. The Electrics. Neptunos, Independents, John B. Smith and A. D. Spencer Hose companies made quick responses. By ration of Trinity were held in the several | the time they had their attachments made and began to get water on the blaze, the wind subsided and from the very outset the firemen made good

gains on the flames. Their efforts were were first directed oward saving the buildings that had not as yet taken fire. After these had been thoroughly drenched with water and the small blazes about them extinguished their attention was turned to the Williams residence and Harring-ton hotel. At 1.30 the barns collapsed and this caused the main conflagration to subside to such a degree that nearly the whole force could be worked at the

Williams and Harrington buildings. By 2 o'clock the fire in these was under control and half an hour later the firemen saw themselves complete masters of the fight. Many of the men suffered intensely from the heat and smoke and not a few had their faces

badly scorched by the flames. The Williams and Harrington bulldings were badly burned in the rear and upper portions and the interiors completely flooded with water. This, fortunate to say, is the greatest damage. The contents of the Clave and Hopkins barn were saved and the Flynn barn was empty. The fact that the Flynn barn, where the fire started, was unused, causes Chief O'Hara to pro-

Just what the damage is in figures annot be stated. A rough and hurried stimate would place it at \$8,000.
